MONSTER Trivia

- Which nightmarish creature tenderizes the meat of its prey by storing carcasses underwater?
- The fields of vision for both of this monster's eyes overlapped to give it depth perception, which helped it accurately attack prey.
- What were triceratops' sharp jaws used for?
- Dead lizards and bats were used to make fake specimens of this legendary creature.
- The sparkling fire-bellied snake is the only predator that can eat this animal and live to hunt again.
